Target Role: Power Apps, Power Automate Developer - Myworkdayjobs.com | **Company:** Myworkdayjobs.Com

Subject: Application for Power Apps, Power Automate Developer - Myworkdayjobs.com - KARTIK BHATT

Dear Hiring Team,

Dear Hiring Team at Myworkdayjobs.com, I am excited to apply for the Power Apps & Power Automate Developer position (Job ID R0134337) based in Chennai. With over three years of hands-on experience delivering end-to-end Power Platform solutions, I am eager to bring my technical expertise and stakeholder-focused mindset to your innovative team.

At KPMG, I designed and deployed a comprehensive Power Platform suite that enabled 20,000 annual outreach activities across 13 sectors, delivering Power Automate flows, SharePoint lists, Power Apps, and Power BI dashboards that saved more than 1,200 hours each year. I also automated the migration of legacy Excel data for 45 business pillars, created VBA-macro tools that refreshed a global repository of 30,000 assets (saving 485 hrs), and built a Copilot-driven agent that reduced manual data-tagging effort by 325 hours, cumulatively delivering over 2,000 hours of efficiency gains.

My skill set aligns directly with your requirements: advanced Power Apps, Power Automate, Power BI, SharePoint Online, and Copilot Studio development, complemented by strong SQL and Excel automation capabilities. I hold multiple Microsoft AI certifications (Azure AI Fundamentals, AI Business Professional, AI Transformation Leader) and a Lean Six Sigma Yellow Belt, which together reinforce my ability to create scalable, data-driven solutions while maintaining rigorous quality standards.

I am confident that my proven track record of delivering measurable automation outcomes will add immediate value to Myworkdayjobs.com. I welcome the opportunity to discuss how my experience can support your goals and am available for an interview at your convenience. Thank you for your consideration.

Warm regards,

KARTIK BHATT
