Target Role: Lead Consultant, Microsoft Power Automate with MS Copilot | **Company:** Genpact

Subject: Application for Lead Consultant, Microsoft Power Automate with MS Copilot - KARTIK BHATT

Dear Hiring Team,

I am excited to apply for the Lead Consultant, Microsoft Power Automate with MS Copilot position at Genpact, where I can combine my three-plus years of automation expertise with a passion for driving digital transformation for global enterprises.

At KPMG, I designed and delivered end-to-end Power Platform solutions that enabled 20,000 annual outreach events across 13 sectors, saving 1,200 hours per year, and migrated legacy Excel-based data collection for 45 pillars using Power Automate and SharePoint, delivering an additional 485 hours of efficiency. I also built a multi-modal Copilot agent that automated metadata tagging and data cleanup, cutting 325 hours of manual effort, contributing to a total savings of over 2,000 hours annually and earning multiple KUDOS and Super Team awards for Lean Six Sigma-driven impact.

My skill set extends to Power Apps, Power BI, SharePoint Online governance, SQL, and advanced VBA scripting, complemented by certifications such as Microsoft Azure AI Fundamentals, AI Transformation Leader, and Lean Six Sigma Yellow Belt. At GlobalLogic, I created QA frameworks for GenAI training datasets that reduced errors by 25% and boosted project quality from 74% to 95%, demonstrating my ability to blend automation with data-centric processes-key capabilities for Genpact's AI-enabled consulting practice.

I am confident that my proven track record of delivering measurable automation outcomes, coupled with my strong stakeholder management and continuous learning mindset, will add immediate value to Genpact's Power Automate and Copilot initiatives. I welcome the opportunity to discuss how I can contribute to your team and am available for an interview at your convenience.

Warm regards,

KARTIK BHATT
