Target Role: Data Analyst II (Sharepoint/ PowerApps/ Power Automate ... | **Company:** Slihrms

Subject: Application for Data Analyst II (Sharepoint/ PowerApps/ Power Automate ... - KARTIK BHATT

Dear Hiring Team,

I am writing to apply for the Data Analyst II position at Slihrms, attracted by the focus on Power Apps and Power Automate to drive productivity; my three-year track record of delivering large-scale Power Platform automations aligns directly with this need.

At KPMG I built a Power Platform solution that supported 20,000 annual outreach activities and saved 1,200 hrs. per year, and I migrated data for over 45 pillars to SharePoint Online using three Power Automate flows, delivering more than 2,000 hrs. of total annual savings across initiatives.

My technical toolkit includes Power Apps, Power Automate, SharePoint Online, Power BI, Copilot GenAI, VBA macros, MS Excel, and SQL-all explicitly mentioned in the job description-enabling me to design, automate, and visualize data workflows that enhance business productivity.

I am eager to bring this blend of automation expertise and data-focused analysis to Slihrms and am available to start immediately; thank you for considering my application.

Warm regards,

KARTIK BHATT
