Subject: Application for 34185 Power Bi Jobs in India - KARTIK BHATT

Dear Hiring Team,

I am excited to apply for the Power BI Developer role at Sonata Software. My recent work at KPMG delivering large-scale Power Platform and Power BI solutions directly matches your requirement for a developer who can create impactful analytics dashboards.

At KPMG I built a Power Platform solution that enabled 20,000 annual reach-outs across 13 sectors and saved 1,200 hrs each year, while overall automation efforts saved more than 2,000 hrs annually. Additionally, I managed SharePoint governance for over 50 requests and automated the refresh of a 30,000-asset repository, delivering 485 hrs of time savings.

My technical toolkit includes Power BI, Power Apps, Power Automate, SharePoint Online, SQL, and advanced Excel, all of which I have applied to build data-driven solutions. Certifications such as Microsoft Certified: Azure AI Fundamentals and Lean Six Sigma Yellow Belt further demonstrate my ability to blend analytics with process-improvement methodologies, aligning perfectly with the skills outlined in your posting.

I look forward to discussing how my proven track record of delivering efficient, stakeholder-focused BI solutions can contribute to Sonata Software's success. I am available for an interview at your convenience.

Warm regards,

KARTIK BHATT
