Subject: Application for 2023 power bi jobs in Bengaluru, September 2026 - KARTIK BHATT

Dear Hiring Team,

I am writing to apply for the Power BI Engineer position at PVH Corp in Bengaluru. My experience building enterprise-scale Power BI dashboards and automating data workflows at KPMG directly aligns with the core responsibilities of this role.

At KPMG I delivered a Power Platform solution that incorporated Power BI dashboards, enabling 20,000 annual outreach activities and saving 1,200 hours each year. Additionally, I saved over 2,000 hours annually by combining Power Platform, Copilot Studio, and VBA automation, and performed Audit Market Share analysis across six sectors, providing senior leaders with clear, data-driven insights.

My technical toolkit includes Power BI, Power Apps, Power Automate, SharePoint Online, SQL, and Copilot GenAI agents-all explicitly mentioned in the job posting. I have applied these tools to build dashboards, automate data pipelines, and manage large-scale content repositories, demonstrating the exact skill set you seek.

I am eager to bring my proven analytics and automation expertise to PVH Corp and can start immediately. Thank you for considering my application; I look forward to the opportunity to discuss how I can contribute to your BI initiatives.

Warm regards,

KARTIK BHATT
