Target Role: Senior Power Apps/SharePoint Developer - Myworkdayjobs.com | **Company:** Demegroup

Subject: Application for Senior Power Apps/SharePoint Developer - Myworkdayjobs.com - KARTIK BHATT

Dear Hiring Team,

I am excited to apply for the Senior Power Apps/SharePoint Developer role at Demegroup, where my three■plus years of delivering large■scale Power Platform solutions directly align with your need for robust Power Apps and SharePoint Online development.

At KPMG I engineered a Power Platform solution that automated outreach to 20,000 contacts across 13 sectors, saving 1,200 hours annually, and migrated legacy Excel data for over 45 pillars into automated SharePoint lists with three Power Automate flows, delivering an additional 2,000 hours of efficiency gains.

My toolkit includes Power Apps, Power Automate (cloud flows, approvals, notifications, integrations), SharePoint Online governance, Power BI for reporting, and Copilot/GenAI agents for intelligent automation-exactly the technologies highlighted in your job description. I also apply Lean Six Sigma principles to embed error handling, monitoring, and continuous improvement into every solution.

I look forward to discussing how my proven automation track record can accelerate Demegroup's digital initiatives; I am available for an interview at your convenience.

Warm regards,

KARTIK BHATT
