Target Role: 499+ Power BI Jobs in India 2026 | Salaries & Apply | **Company:** Bebee

Subject: Application for 499+ Power BI Jobs in India 2026 | Salaries & Apply - KARTIK BHATT

Dear Hiring Team,

I am writing to apply for the Power BI role at BeBee, attracted by your focus on turning data into strategic insights; my experience building enterprise-scale Power BI dashboards that reached 20,000 users annually aligns directly with that mission.

At KPMG I delivered a Power Platform solution that incorporated Power BI dashboards, saving 1,200 hrs each year, and I automated data migration for 45+ business pillars, eliminating manual effort and improving governance. Across both KPMG and GlobalLogic, my initiatives have generated over 2,000 hrs of efficiency and lifted data quality from 74 % to 95 %.

My technical toolkit includes Power BI, advanced Excel, Power Automate, Power Apps, SharePoint Online, and SQL-exactly the stack highlighted in your posting. I have also applied Lean Six Sigma principles to drive process improvements, and I routinely manage stakeholder relationships across 13 sectors, ensuring data solutions meet business needs.

I am eager to bring this blend of analytics expertise and stakeholder-centric delivery to BeBee and can start immediately. Thank you for considering my application.

Warm regards,

KARTIK BHATT
