Subject: Application for SharePoint Online Power User 55215B Certification Course in ... - KARTIK BHATT

Dear Hiring Team,

I am applying for the SharePoint Online Power User 55215B certification course, confident that my hands-on experience governing SharePoint Online environments and automating workflows directly aligns with the course's focus.

At KPMG I handled more than 50 SharePoint governance requests, uploaded over 5,000 assets across multiple libraries, and built a Power Platform solution that automated outreach to 20,000 contacts annually, collectively saving over 1,200 hours each year.

My technical toolkit includes SharePoint Online, Power Automate, Power Apps, Power BI, Copilot GenAI agents, and advanced Excel/VBA scripting-all explicitly mentioned in the course description as core competencies for a Power User.

I look forward to bringing my proven SharePoint and Power Platform expertise to the certification program and am available to start immediately.

Warm regards,

KARTIK BHATT
