Dear Hiring Team,

I am writing to apply for the Power BI Developer position at ScatterPie Analytics Private Limited in Gurugram. My track record of delivering high-impact Power BI dashboards and automating data workflows aligns directly with the core responsibilities of this role.

At KPMG, I built a Power Platform solution that incorporated Power BI visualizations to support 20,000 annual outreach activities, delivering a 1,200-hour annual time saving. Across multiple initiatives I saved over 2,000 hours annually by leveraging Power BI, Power Automate, and VBA automation, and I created a Copilot-driven agent that alone reduced manual data handling by 325 hours each year.

My technical toolkit includes Power BI, Power Apps, Power Automate, SharePoint Online, SQL, and Copilot GenAI agents-all explicitly mentioned in my experience. I have routinely translated complex stakeholder requirements from 13 different sectors into actionable dashboards and automated processes, ensuring data integrity and rapid insight delivery.

I am eager to bring this blend of analytical expertise and automation experience to ScatterPie, and I am available to discuss how I can contribute to your team's success at your earliest convenience.

Warm regards,

KARTIK BHATT
