Target Role: Remote Power Automate jobs | **Company:** Instahyre

Subject: Application for Remote Power Automate jobs - KARTIK BHATT

Dear Hiring Team,

I am writing to express my interest in the Remote Power Automate role advertised on Instahyre; my extensive experience building Power Automate-driven solutions at KPMG directly aligns with the position's focus on automation and remote delivery.

At KPMG I delivered a Power Platform solution that automated 20,000 annual outreach activities across 13 sectors, incorporating Power Automate flows and SharePoint integration and saving 1,200 hours each year. Additionally, I engineered three Power Automate workflows to migrate legacy Excel data for 45+ business pillars, further reducing manual effort and cutting over 2,000 hours annually.

My technical toolkit includes Power Automate, Power Apps, Power BI, SharePoint Online, and Copilot GenAI-exactly the stack highlighted in the job description. I have also applied Lean Six Sigma principles to optimize these workflows, ensuring scalable, high-quality automation for remote teams.

I am eager to bring my proven automation expertise to your organization and am available to start immediately; thank you for considering my application.

Warm regards,

KARTIK BHATT
