Subject: Application for Rpa Developer Power Automate Jobs in Greater ... - KARTIK BHATT

Dear Hiring Team,

I am applying for the RPA Developer - Power Automate role in Greater Bengaluru, confident that my extensive experience building Power Platform solutions at KPMG aligns directly with your need for automation expertise.

At KPMG I delivered a Power Platform solution that automated 20,000 annual outreach activities, integrating Power Automate, Power Apps, and Power BI and saving 1,200 hrs. each year, and I further saved over 2,000 hrs. annually by combining Power Platform, Copilot Studio, and VBA automation-demonstrating the scale of efficiency you seek.

My skill set includes Power Automate, Power Apps, Power BI, SharePoint Online, and Copilot GenAI agents, all of which match the core technologies listed in the job description, and I have a proven record of governing SharePoint environments and creating AI-enhanced workflows.

I look forward to discussing how my automation achievements can contribute to your team's success; I am available for an interview at your convenience.

Warm regards,

KARTIK BHATT
