**Target Role:** Power Automate Training in Gurgaon | **Company:** Cromacampus

**Subject: Application for Power Automate Training in Gurgaon - KARTIK BHATT**

Dear Hiring Team,

I am writing to express my interest in the Power Automate Training position at Croma Campus in Gurgaon. With over three years of hands-on experience building enterprise-grade automation solutions at KPMG, I have developed a deep proficiency in Power Automate that goes beyond basic flow creation, encompassing complex data integration, governance, and performance optimization.

At KPMG, I led the migration of legacy Excel-based data collection to automated SharePoint and Power Automate workflows, resulting in an annual savings of over 2,000 hours. I specifically designed multiple Power Automate flows for alerts, change management, and data migration, which not only streamlined operations but also required the creation of detailed technical documentation and user guides to ensure successful stakeholder adoption.

My technical stack aligns directly with the curriculum requirements for Power Automate experts, including advanced use of connectors, data collectors, and integration with Power Apps and SharePoint Online. Additionally, my experience in creating best practices and process documentation for complex projects, such as the GenAI agent implementation, provides me with the pedagogical foundation necessary to effectively teach and mentor new learners in workflow automation concepts.

I am eager to bring my practical expertise in Microsoft Power Platform and my experience in process documentation to Croma Campus, helping students master the skills needed for high-demand automation roles. I am available for an interview at your earliest convenience to discuss how my background can contribute to your training programs.

Warm regards,

**KARTIK BHATT**
