Target Role: Power Automate Jobs in Gurugram | **Company:** Amb

Subject: Application for Power Automate Jobs in Gurugram - KARTIK BHATT

Dear Hiring Team,

I am writing to apply for the Power Automate position at Amb in Gurugram. My experience delivering large-scale Power Platform solutions at KPMG, where I automated outreach to 20,000 contacts and saved over 2,000 hours annually, aligns directly with the role's focus on workflow automation.

At KPMG I built a Power Platform suite that integrated Power Automate flows, SharePoint lists, Power Apps and Power BI, enabling 20,000 yearly reachouts across 13 sectors and cutting 1,200 hrs of manual effort. I also engineered three dedicated Power Automate flows for a data migration project affecting 45 pillars, and managed 50+ SharePoint governance requests, demonstrating both technical depth and stakeholder coordination.

My technical toolkit includes Power Automate, Power Apps, Power BI, SharePoint Online, Copilot GenAI agents, VBA macros and SQL-all explicitly mentioned in your job description. The Lean Six Sigma Yellow Belt certification further underlines my commitment to process efficiency, which complements Amb's emphasis on delivering measurable automation outcomes.

I am eager to bring my proven automation expertise to Amb's hybrid team in Gurugram and am available to start immediately. Thank you for considering my application; I look forward to the opportunity to discuss how I can contribute to your automation initiatives.

Warm regards,

KARTIK BHATT
