Target Role: SharePoint Online Sr Operational Support Analyst | **Company:** Autodesk

Subject: Application for SharePoint Online Sr Operational Support Analyst - KARTIK BHATT

Dear Hiring Team,

I am excited to apply for the SharePoint Online Sr Operational Support Analyst position at Autodesk, where my extensive SharePoint governance experience and proven automation track record align directly with the role's core responsibilities.

At KPMG, I managed over 50 SharePoint governance requests, overseeing term store, metadata, and permission configurations, and built a Power Platform solution that automated 20,000 annual outreach activities, delivering a combined time savings of more than 2,000 hours per year.

My skill set includes SharePoint Online administration, Power Automate, Power Apps, Power BI, and VBA scripting, all of which map to Autodesk's need for robust SharePoint operational support and data-driven reporting; additionally, I have applied Lean Six Sigma principles to streamline processes and improve efficiency.

I look forward to bringing my hands-on SharePoint expertise and automation experience to Autodesk's team and am available to discuss how I can contribute to your operational excellence.

Warm regards,

KARTIK BHATT
