Target Role: Live Project Based Advance MS Excel training in Noida | **Company:** Kvch

Subject: Application for Live Project Based Advance MS Excel training in Noida - KARTIK BHATT

Dear Hiring Team,

I am applying for the Live Project Based Advanced MS Excel Trainer position at KVCH in Noida because my extensive experience automating Excel workflows and delivering large-scale data solutions directly aligns with the program's hands-on Excel focus.

At KPMG I migrated legacy Excel-based data collection for over 45 pillars to an automated SharePoint solution and created VBA-macro driven processes that refreshed a 30,000-asset repository, together saving more than 2,000 hrs. annually; a separate Power Platform initiative streamlined 20,000 annual outreach activities, delivering an additional 1,200 hrs. of efficiency.

My core toolkit includes MS Excel, VBA macros (demonstrated through the automation projects above), Power Automate, Power Apps, SharePoint Online, Power BI, and Copilot GenAI, all of which are listed in my skill set and reinforced by certifications such as Microsoft Azure AI Fundamentals and Lean Six Sigma Yellow Belt, providing a strong foundation for teaching advanced Excel techniques.

I am confident that my proven track record in Excel automation and data-driven solutions makes me an ideal fit for this role and I am available to begin the training program at your earliest convenience.

Warm regards,

KARTIK BHATT
