Target Role: 1042 Power bi developer jobs in India | **Company:** Glassdoor

Subject: Application for 1042 Power bi developer jobs in India - KARTIK BHATT

Dear Hiring Team,

I am writing to express my interest in the Power BI Developer position at Al Shams General Trading, attracted by the focus on delivering robust Business Intelligence solutions in a remote■first environment.

At KPMG, I built a Power Platform solution that delivered Power BI dashboards supporting 20,000 annual outreach activities across 13 sectors, directly saving 1,200 hrs. each year; additionally, I automated data migration for 45 pillars using Power Automate, further streamlining reporting pipelines.

My technical toolkit aligns closely with the role's requirements: extensive hands■on experience with Power BI, Power Apps, Power Automate, SharePoint Online, and SQL, complemented by advanced automation using VBA and Copilot GenAI agents to accelerate data preparation and visualization.

I am eager to bring this blend of BI development and automation expertise to Al Shams General Trading and am available to start immediately.

Warm regards,

KARTIK BHATT
