**Target Role:** Power Automate jobs in Bengaluru, Karnataka | **Company:** Indeed

**Subject: Application for Power Automate jobs in Bengaluru, Karnataka - KARTIK BHATT**

Dear Hiring Team,

I am writing to apply for the Power Automate role at Indeed in Bengaluru. My recent work at KPMG delivering large-scale Power Platform automations aligns directly with the core responsibilities of this position.

At KPMG I built a Power Platform solution that supported 20,000 annual reachouts across 13 sectors, saving 1,200 hrs each year, and I further delivered end-to-end migration workflows that eliminated manual Excel processes for 45 pillars. Across the organization I generated over 2,000 hrs of efficiency by combining Power Automate, Power Apps, Power BI and Copilot Studio.

My technical toolkit includes Power Automate, Power Apps, Power BI, SharePoint Online, SQL and Copilot GenAI, all of which are explicitly called for in the job description. I have applied these tools to automate data pipelines, create interactive dashboards and manage governance at scale, demonstrating the low-code development and data automation expertise you seek.

I am eager to bring this proven automation experience to Indeed's team in Bengaluru and am available to discuss how I can contribute immediately. Thank you for your consideration.

Warm regards,

**KARTIK BHATT**
