Target Role: Work From Home Power BI Developer Jobs | **Company:** Amb

Subject: Application for Work From Home Power BI Developer Jobs - KARTIK BHATT

Dear Hiring Team,

I am writing to apply for the Power BI Developer (Work From Home) position at Amb. My recent role at KPMG involved building Power BI dashboards and end-to-end Power Platform solutions that delivered measurable time savings, directly aligning with the core responsibilities of this role.

At KPMG I delivered a Power Platform solution that produced Power BI dashboards supporting 20,000 annual reachouts and saved 1,200 hrs. annually; additionally, I saved over 2,000 hrs. each year by automating workflows with Power Automate, Copilot Studio, and VBA macros. These results demonstrate my ability to create high-impact visual analytics and automation at scale.

My technical toolkit includes Power BI, Power Apps, Power Automate, SharePoint Online, SQL, and advanced Excel-all explicitly listed in my skill set. I have also earned Microsoft certifications in AI and Azure fundamentals, reinforcing my capability to work with data-driven solutions in a remote environment.

I am eager to bring my proven Power BI expertise and remote-work discipline to Amb. I am available to start immediately and look forward to discussing how I can contribute to your team.

Warm regards,

KARTIK BHATT
