Target Role: Data Analyst - Power BI, SQL - Myworkdayjobs.com | **Company:** Ntrs

Subject: Application for Data Analyst - Power BI, SQL - Myworkdayjobs.com - KARTIK BHATT

Dear Hiring Team,

I am writing to apply for the Data Analyst - Power BI, SQL position at Ntrs (Myworkdayjobs.com). My experience building enterprise-scale Power BI dashboards and automating data workflows directly aligns with the core responsibilities of this role.

At KPMG, I delivered a Power Platform solution that incorporated Power BI dashboards, reaching 20,000 contacts annually and saving 1,200 hrs. of manual effort. Additionally, I saved over 2,000 hrs. each year by integrating VBA macros and Copilot Studio, and I reduced data entry errors by 25% while leading QA initiatives at GlobalLogic.

My technical toolkit includes Power BI, SQL, Power Automate, Power Apps, SharePoint Online, and Copilot GenAI, all of which are highlighted in the job description. I have repeatedly applied Lean Six Sigma principles to drive efficiency, and I thrive in adaptable, team-oriented environments where I mentor peers and support skill development.

I am confident that my proven record of data-driven automation, strong financial and business development insight, and collaborative mindset make me a strong fit for Ntrs. I look forward to discussing how I can contribute to your analytics team and am available to start immediately.

Warm regards,

KARTIK BHATT
